

# Wonder

## BRAND STORY

We created the Wonder brand to help people integrate psilocybin into their holistic wellness routine. Whether you wish to microdose periodically, increasing your creativity, decreasing your anxiety, and improving your mood, or taking a deeper dive philosophically with your friends and try the museum dose, or you may be looking to reset your ego and take a trip down the rabbit hole with a mega dose. At Wonder, we're all about precision so that you are assured of a positive psilocybin experience.

## OUR VALUES

The world can be a pretty tough place. The way we perceive it is a big part of it. There are those who feel that they would never have stopped to notice the more interesting aspects of life if they had never shifted their perception. We believe that an altered state can open up a world not previously perceived, and that's a good thing.

# Wonder

Wonder chocolate is an easy way to integrate psilocybin into your holistic wellness routine. Our chocolate bars are made with the highest quality chocolate and crafted to provide just the precise measurement of the world's most beloved psychedelic mushroom, psilocybe Cubensis. They are third party tested, so that you can precisely achieve your desired state of mind.

1g Psilocybin / package  
250mg Psilocybin / piece

# Wonder

You might want to graduate to a museum dose. This way you can examine everything in a bit more detail and with a bit more introspection. Try consuming 2 pieces of a Wonder bar every 60 minutes until you feel ready to dive in a little deeper. The mega dose is just that, consume a 6 gram bar and get ready to blast off into the cosmos.
